Parts Manager

- Distill complex technical concepts into easy to digest (and buy) ideas for the non technical end user
- Deliver results based on needs and budget, adapted to quickly changing requirements and shortages
- Ensure client understanding of tradeoffs and alternatives
- Work with a wide variety of stakeholders including other managers, staff and customers
- Exceed expectations, sales targets and metrics by which I was measured
- Advanced from Delivery Driver to Parts Advisor to Assistant Manager then Manager in 5 years

My **previous roles** have included bartender, business owner, recruitment, financial planner, accountant, tax preparer and more, where I learned an amazing array of skills I utilize everyday.
